

For the a.y. 2026/27, the study plan of the MSc in Finance is approved if the elective courses (worth 12 CFU/credits) are chosen from those proposed in the Academic Regulation, which are the following:

- 511180 Algorithms for Optimization (6 CFU)
- 509896 Computational Methods (6 CFU)
- 511591 Advanced Quantitative Finance (6 CFU)

Students willing to select courses other than those proposed above should provide adequate motivation for their choice. In this case, please contact the Head of the MSc in Finance well in advance. In any case, a student's final selection of electives is subject to the approval of the Board of the MSc in Finance.
